

VIDA2 CONSOLE

UNLIMITED CUSTOMISABILITY

Utilizing a single basic modular system, the VIDA2 Console offers flexibility and options for customization limited only by imagination.

The VIDA2 Console is 100% customisable. Layout, configurations, dimensions and exterior outlook of all VIDA2 Consoles is user specific; exceeding beyond expectation.

CONSOLES

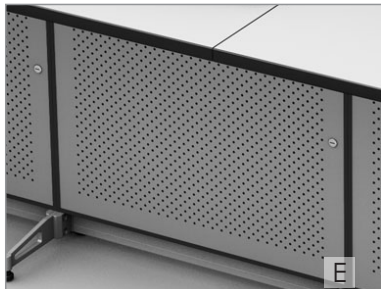

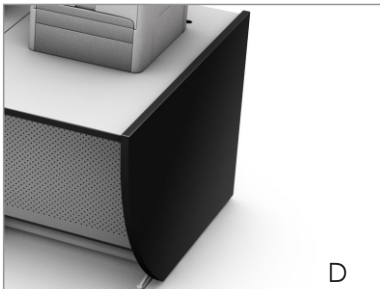

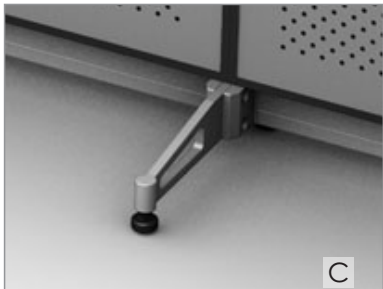

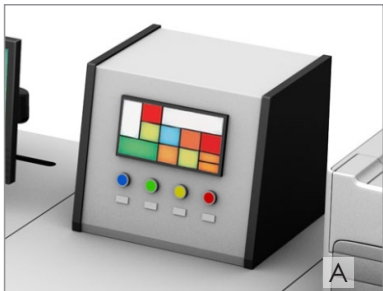

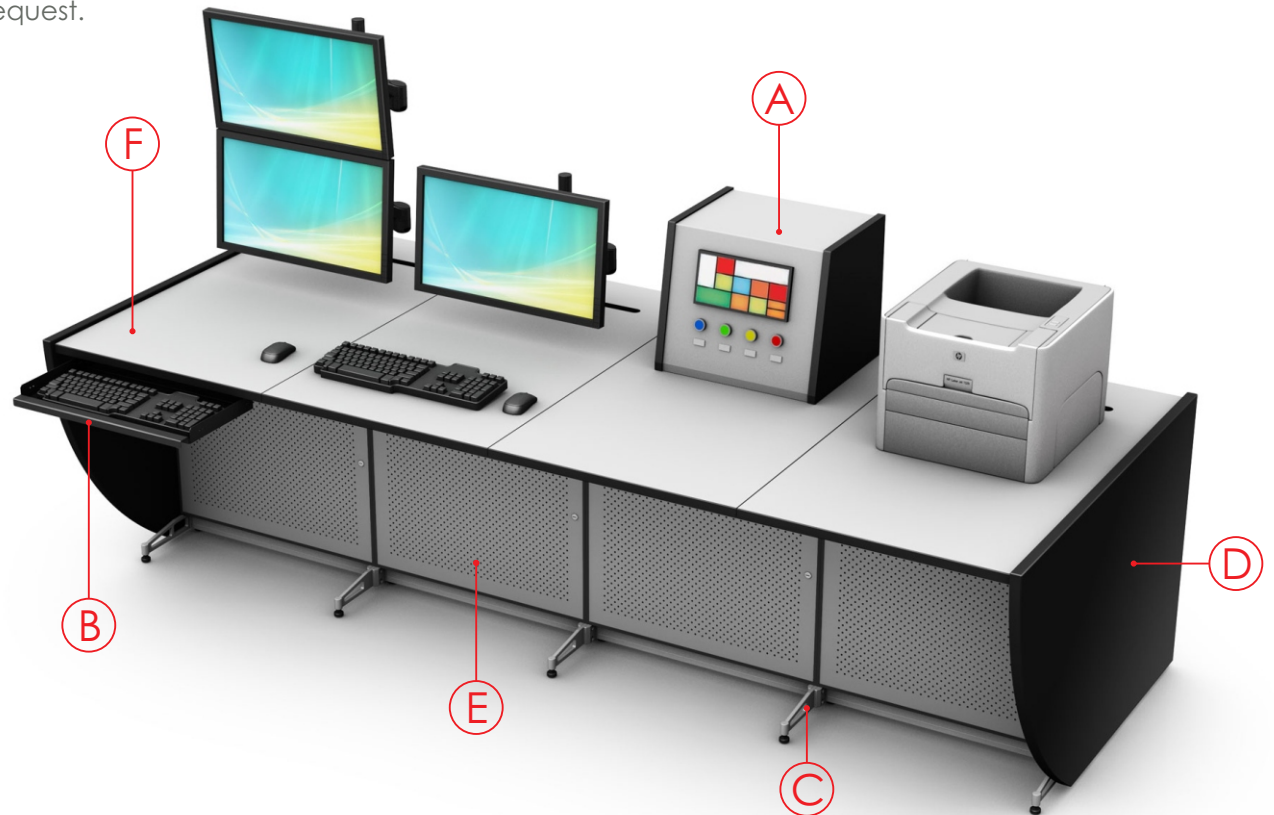

GENERAL FEATURES

Responding to the varying needs of different users, VIDA2 Console has provided a wide range of add-ons, fulfilling specific tasks and needs.

All add-ons are optional and not limited to this range depicted. Customised fittings, panels and housings are available upon request.

- A. Custom-made hardwired panel
- B. Keyboard shelf
- C. Support foot
- D. End panel
- E. Access door
- F. Work surface

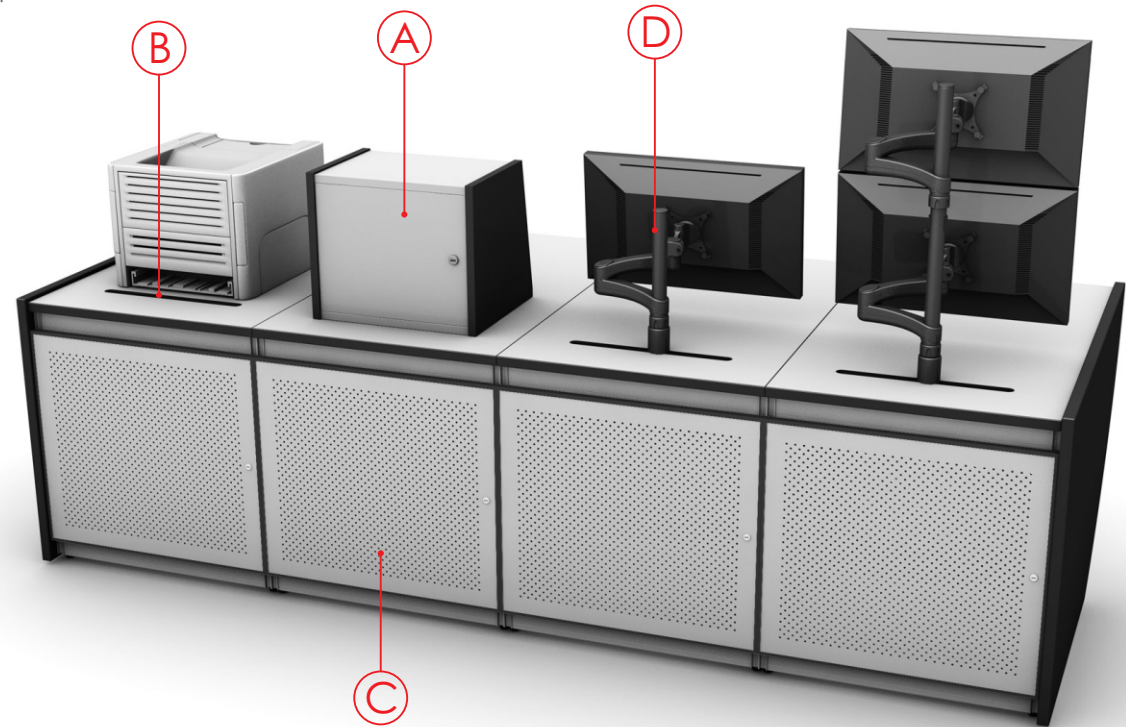

GENERAL FEATURES

Responding to the varying needs of different users, VIDA2 Console has provided a wide range of add-ons, fulfilling specific tasks and needs.

All add-ons are optional and not limited to this range depicted. Customised fittings, panels and housings are available upon request.

- A. Custom-made hardwired panel
- B. Cable and mounting grommet
- C. Access door
- D. Flat panel display mounting

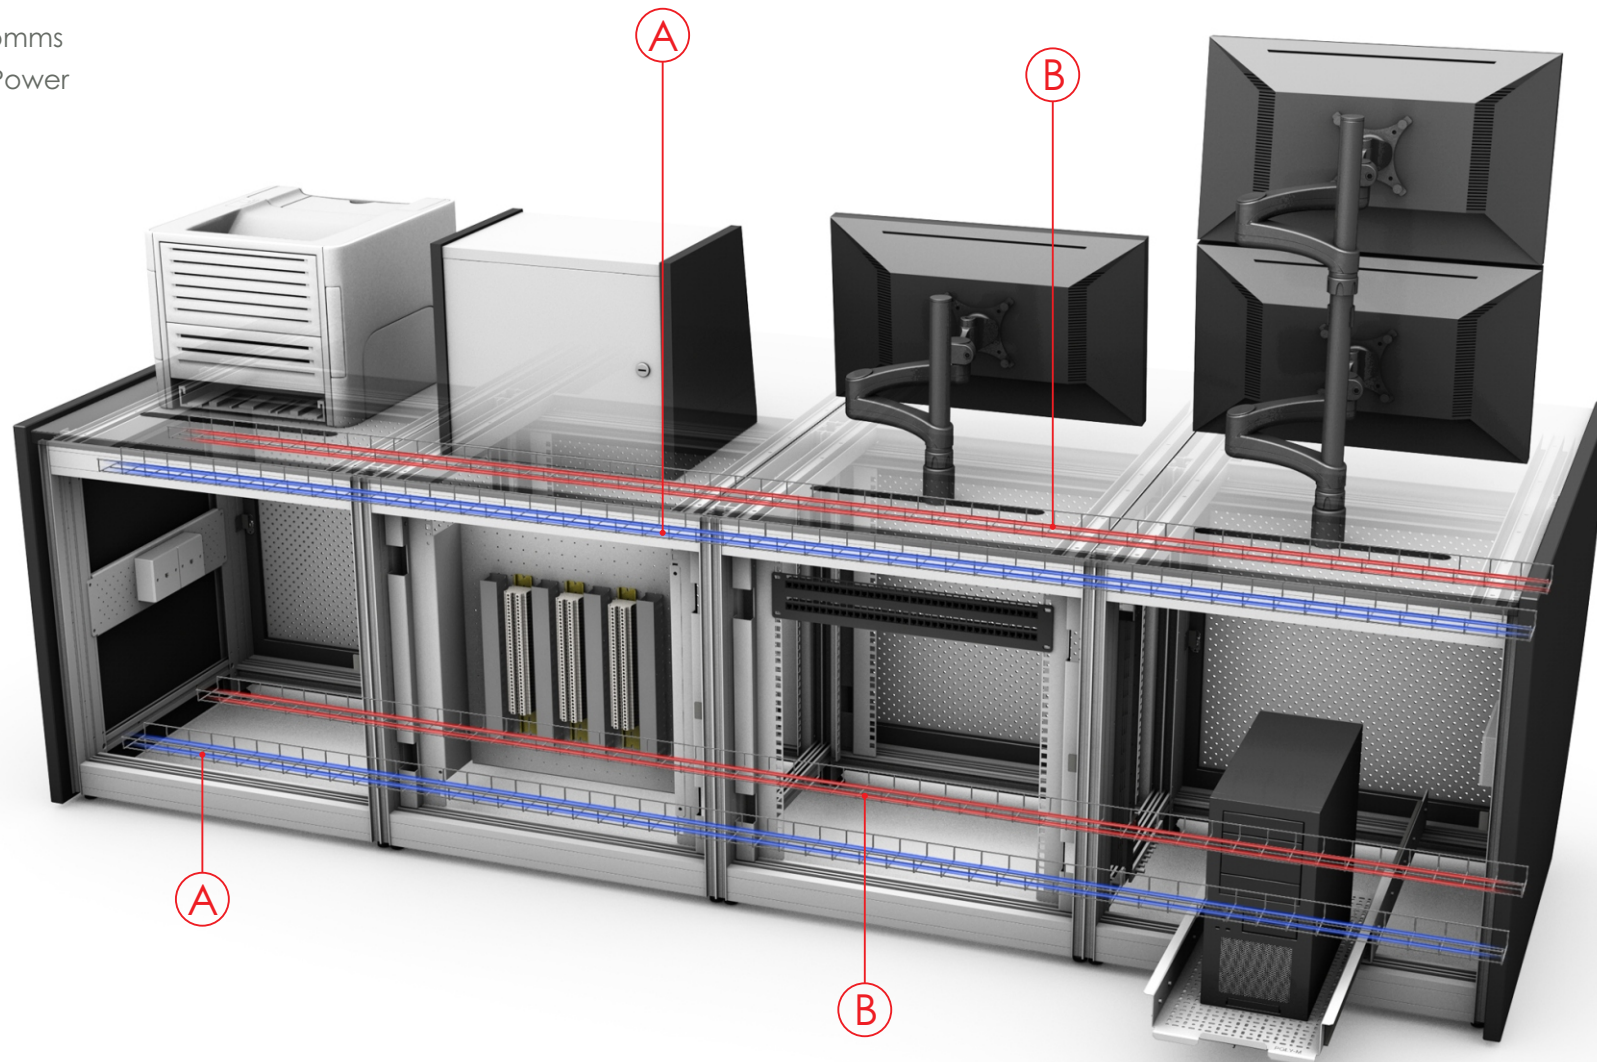

CABLE MANAGEMENT

The cable management is the least visible component but plays a very critical role in any console system; it provides safety, efficiency and unwanted disruptions in any mission critical facility.

Cable raceways are provided in the VIDA2 Console ensuring electrical power are separated from the data & comms cables.

- A. Data & Comms
- B. Electrical Power

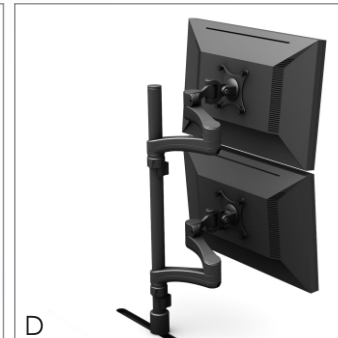

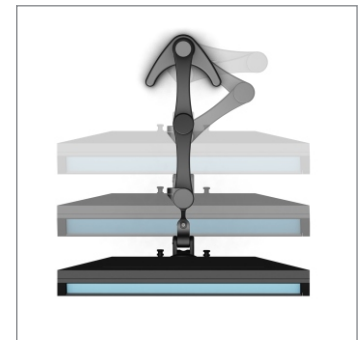

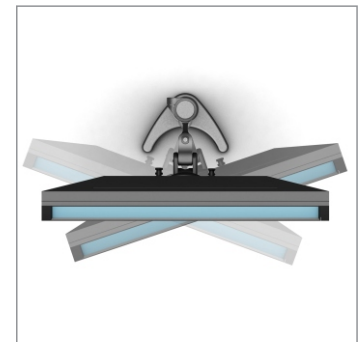

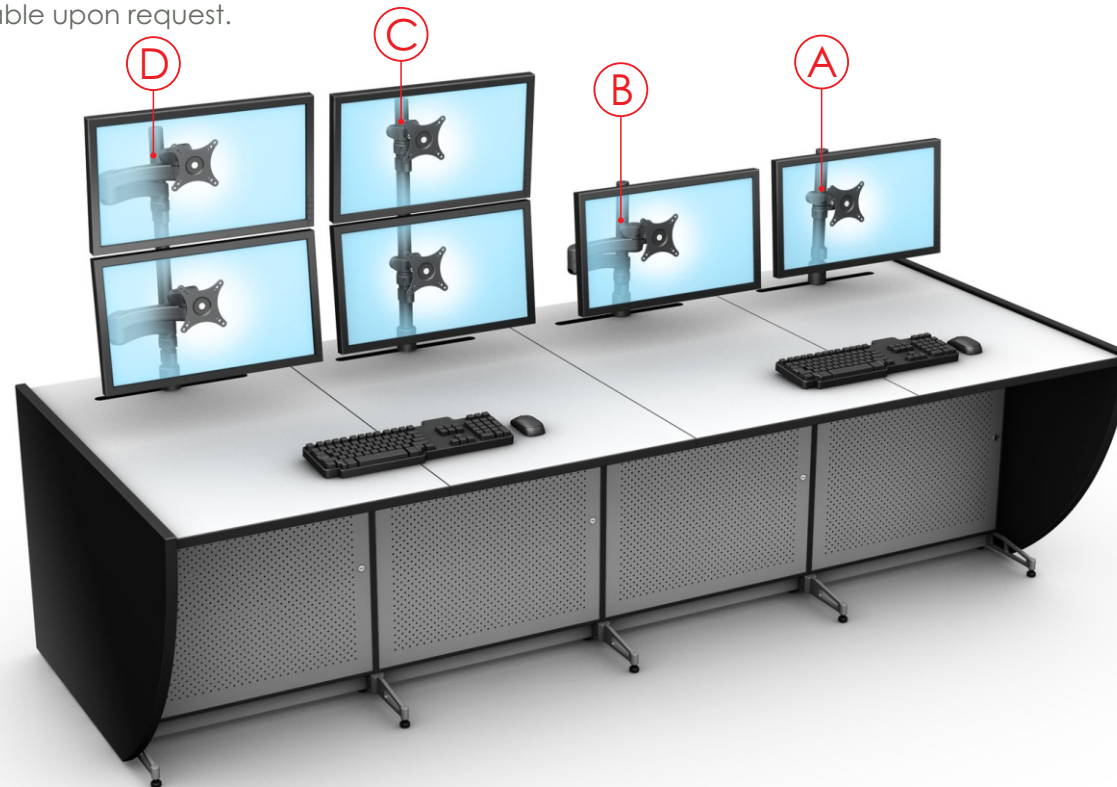

FLAT PANEL DISPLAY MOUNTING

A comprehensive selection of mounting solutions are available to complement different types and sizes of flat panel displays.

All selections are optional and not limited to this range depicted, customisation is available upon request.

- A. Single pivot
- B. Single articulating
- C. Dual tier pivot
- D. Dual tier articulating

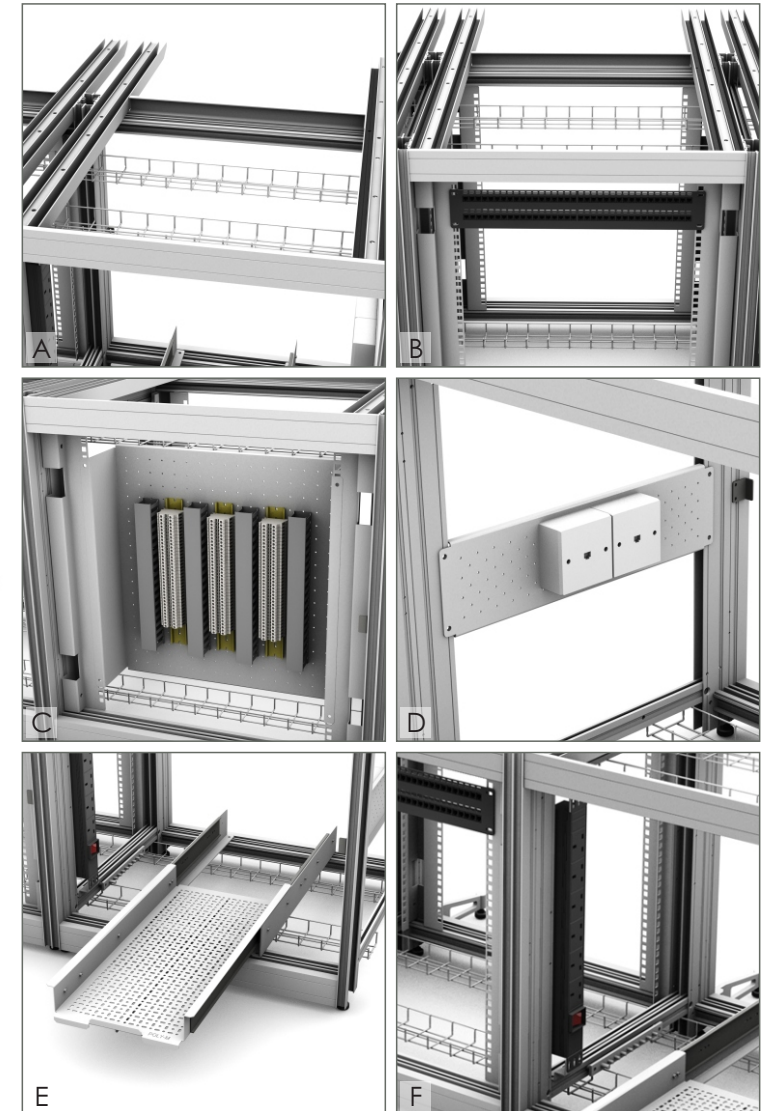

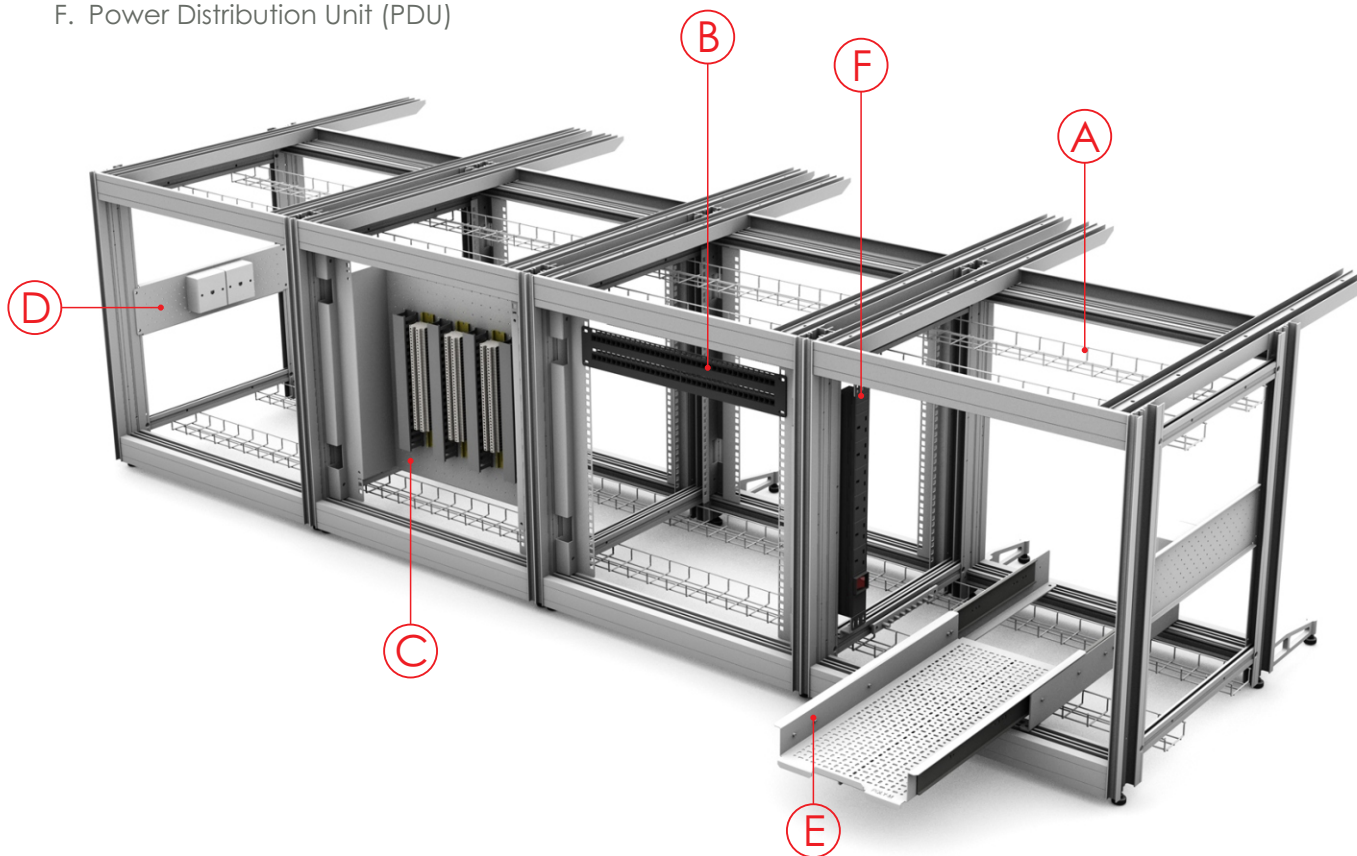

TECHNICAL FEATURES

Functional technical features are quintessential in any console system, hence the VIDA2 Consoles packs in every feature you can imagine, maximising functionality.

All technical features are optional and not limited to this range depicted. Customised fittings, panels and housings are available upon request.

- A. Cable raceway
- B. 19" Rackmount rack
- C. Hardwired systems termination panel
- D. Electrical / Data outlet panel
- E. Retractable equipment shelf
- F. Power Distribution Unit (PDU)

ROBUST CONSTRUCTION

The VIDA2 Console utilizes a revolutionary modular system constructed with recyclable gauged sheet steel and precision aluminum extrusions for durability and strength.

All steel components are constructed with > 2.0mm (CRS) Cold Rolled Steel and > 5.0mm(HRS) Hot Rolled Steel in durable RAL9006 (Aluminum White) epoxy powder coated finish.

All precision aluminum extrusions are extruded with industrial grade 6063-T5 Aluminum.

Elastic Modulus : $6.9 \times 10^{10} \text{ N/m}^2$

Shear Modulus : $2.58 \times 10^{10} \text{ N/m}^2$

Density : 2700 kg/m^3

Tensile Strength : 185000000 N/m^2

Yield Strength : 145000000 N/m^2
